GOLF CHAMPIONSHIP TO WEST.

H. CHANDLER EGAN GAINS THE The Haynes-Apperson Co. TITLE AT BALTUSROL.

Wins From Fred Herreshoff by 8 Up and 6

to Play-Interesting Match Followed

by Large Gallery—Harvard Man Out-

classed Plucky Pottstown Schoolboy.

"Try, try again!" has been the motto of

H. Chandler Egan anent the amateur championship, and yesterday, on his fourth trial, he won the coveted title at the Baltusrol

Golf Club by defeating Fred Herreshoff of the Ekwanok Country Club and Hill School

Pottstown, by 8 up and 6 to play, in thirty-six holes. Egan finished 9 up in the morning and he had to play his best to withstand the vigorous effort of Herreshoff in the after-

noon to square matters.

The Harvard captain is to try for the Olym-

pic championship in a week from to-morrow

titles. He was the intercollegiate champion

in 1902, won the Western amateur champion-

ship the same year and also this year, and

now he is the national champion.

"If you don't mind," was a request of Chand-

ler Egan, as he turned for a moment from the crowd congratulating him, "you might print

that neither Walter nor I is a son of Gen.

Egan. The statement was sent all over

the country when Walter was runner-up to Travis in the 1901 championship at Atlantic

Egan played in knickerbockers and jacket

of tweed, gray stockings and a cap, while Herreshoff wore fiannel trousers, a silk shirt

and tennis hat. The Harvard man, as Judge

Russell said of the golfers at Sandwich,

two rows of spectators.

C. B. Macdonald came out to see the finish and swell the applause when President Wind-

eler presented the prizes, but it was a matter of comment that none of the others who

have held the title, notably Walter J. Travis and Findlay S. Douglas, honored the occasion

with their presence.

H. Chandler Egan won a three-handled

loving cup as the lew score trophy, and the gold medal, while the Exmoor Club will have the possession for the year of the Have-

meyer championship cup. Fred Herreshoff won the silver medal and Dr. D. P. Freder-icks and W. T. West the bronze medals. Dr.

and the grace and strength of the women

I never saw women tramp over hills and

hollows so vigorously or who looked more charming. We are all playing golf in Tennes-see, and it is keeping the old men young and

The great shot on the first hole was with a cleek, in the attempt to recover from two shots lost by pulling the drive into the fence. Egan's ball was just past the ditch and he sent it like an arrow for the 190 yards to the green. Another pulled drive brought Egan into the fence from the second tee and he had to pitch back. His ball rolled further than he had wanted and it nearly went against the cop bunker. There was just room enough to swing the brassey and Egan made the shot so neatly that he reached the edge of the green. Two such fine recoveries from mishaps are seldom seen on the links in amateur competitions.

so neatly that he reached the edge of the green. Two such fine recoveries from mishaps are seldom seen on the links in amateur competitions.

Herreshoff won the first in a perfect 5, but he pulled the second drive just as Egan did. The balls rested almost together, but Herreshoff was out from the fence and could play forward with the iron. The half in 5 was all he could expect after Egan's brassey shot. The Brooklyn boy won the third, 3 to 4, for Egan was too strong on the approach.

Now Egan began to outpley Herreshoff, a new experience for the schoolboy, and to find that he had met a master very quickly unsettled him. The ability to keep on against a golfer who gets more distance and is as good at putting is an attribute that will only come to Herreshoff by a few such beatings as Egan administered to him yesterday. Herreshoff is a great golfer in embryo, just as Chandler Egan was four years ago. If the Brooklyn boy keeps in the game, he is sure to some day pluck the fruit from the championship tree, said the critics who followed him.

On the fourth Eagan made the green in 3, but Herreshoff had to play his third from rough grass and found the sand pit, so that Egan had the hole, 5 to 6. A clever iron shot enabled Herreshoff to make the fifth green on the second, although Egan had outdriven him by forty yards, and they halved in four. Par golf made the sixth a 4 for Egan, but Herreshoff bulled his drive and was stymied by some trees, taking a 5. A good half in 5 followed and then a bad one, also in 5, for neither made a good drive, Egan topping and Herreshoff slicing.

To the ninth Egan used a cleek, and allowing for the slope of the hill nicely he held the green and got a 3, while Herreshoff used a mid-iron and was to the left of the green, holing in 4. This made Egan 1 up at the turn, the strokes being 41 to 42.

Coming home Egan displayed a record game, and, forsging along like a yacht with a free wind, he made really no mistakes, save that the sixteenth might have been a 5. The best Herreshoff made a splend

NOTES OF THE TRADE.

see, and it is keeping the old men young and making the youngsters all athletes. The only thing I don't like is that square headed putter of Herreshoff's: it is more like a thoroughbred to use a mashie and then a gooseneck putter, like Egan does.

Egan lost the first and only halved the second, bat on each he played a single shot in such masterly style that his friends felt as good as though he had won both holes. They only grinned when Egan lost the short third hole, for was not their champion on his game? He had answered the question to their satisfaction in the swiri of troubles on the first two holes and this granted, the Harvard hove What's Going On in Automobile Circles -Horse and Carriage Dealers. One fact thoroughly established by L. L. Whitman and C. H. Harris in their phenomenal record trip from San Francisco to New York was the en-durance and reliability of the Franklin car. One of the principal reasons for making this trip was two holes, and this granted, the Harvard boys and Western men on the links believed no solfer in America could defeat Egan. The great shot on the first hole was with

rapid and frequent explosions of gasolene in the cylinders. These explosions produce an enormous heat, and the automobile world had practically stream of water was constantly being pumped. This water connects in some cars with a water tank and in all cars with a cumbersome and heavy The principle of air cooling had been tried by French caperimentalists, but they did not succeed. The talented engineer of the Franklin car devised an engine which successfully cooled its cylinders by air. It has made the Franklin car the lightest car for its horse-power in the world, and now that it has been demonstrated that it can be run at full speed over the great American deserts in the bot days of Award the successful and this car have there is no cuestion.

attions found in any locality in the world.

The Haynes Apperson Company has opened a New York city branc at 1713-1715 Broadway under the charge of F. C. Carrie, with a full line of the famous Haynes autonobiles. Machinists trained in the home factory will be present to assier customers, and the necessary machinery is being rapidly installed.

It is asserted for the Worthington Meteor that it is the best American built car and the most appropriate for American roads, one of its leading features being simplicity of construction. There is substance behind this assertion, for C. C. Worthington, the president of the company, is that same Worthington who is so well known as the inventor of the famous Worthington pump. The Meteor is bevel gear driven—with control from the wheel and direct drive on, high speed. Pending the erection of its model garage the Worthington company is located at 547 Fifth avenue.

The Samson leather three which Justin C. Walker

The Samson leather tire which Justin C. Walker of the Mobile Storage and Repair Company, Broadway, corner Fifty-fourth street, is featuring, besides being non-slipping and unpuncturable. Successfully stands the strain of high speeds, and can run over rough stones without being damaged. The leather employed for the Samson tire, though of the toughest quality, is thoroughly pliable and absolutely proof against all weathers and never loses these characteristics. In a word, it combines the qualities of India rubber with the toughness of the best leather. L'Auto, a French automobile paper.

KNOX WATER-

Commercial Cars have shown by competitive en-durance tests that they are the leaders among business cars. They have worked night and day during the most severe New Eng-land winter as well as during the hottest summer days on the

Pacific coast. They have made a record not equalled by any other line of cars. SIX STYLES PASSENGER CARS SIX STYLES COMMERCIAL CARS

says a car driven by the editor of the Auto Velo

In the recent St. Louis tour nine White steamers started and nine arrived at St. Louis as per schedule—tour from New York; one from Boston; two from Cleveland, and two from New Orleans. This certainly speaks well for the consistency of these cars.

William Muhirad, Atlantic City, N. J.—He was champlon of America.

W. B., Newark—Britt lays claim to the feather-weight champlonship in view of his victory over Young Corbett, who in turn defeated Terry McGovern for the title. As the featherweight limit is 122 pounds, ringside, and as Corbett and Britt fought considerably above this scale, they are virtually lightweights.

FOR 30 YEARS

For 30 years I have been treating and curing the Diseases and Weaknesses of Men. I have done and do nothing else. I understand these cases as a child knows its alphabet. If you had been making shoes or sawing wood or doing any one thing for the same length of time you would know your business or trade as I know mine. Experience is the best of teachers. There is no guess work, experimenting or failure. I know just what I can do, do it and do it well.

I Cure Where Others Fail.

Obstinate and so-called "Hopeless and Incurable" cases are my specialty, and I am proud of my success. I have a record of over ten thousand cases of Lost Power, Varicocele, Stricture, Hydrocele, Drains and Weaknesses in which ordinary physicians have failed.

I Will Not Dose or Drug Your Stomach

I don't have to. My remedies goright to the spot and do their work quickly and lastingly.

Consultation by mail or in person Free. An honest, straightforward opinion based on 30 years' experience is to be had for the asking. If you neglect it the fault is yours, and the loss will be yours. I OMBARD CLINICAL LECTURES, embodying my latest discoveries, sent free, sealed and without marks.
